

TECHNICAL RIDER DJ LUVWAX 2026

SOUNDCHECK

As I'm mixing with Serato DJ Pro (HID mode) I need the time to connect it. This takes (in optimal conditions) 2 minutes. For take-overs after a band or show, it's necessary to do some prepping on beforehand to guarantee a smooth transition.:

DJ BOOTH

A stable (!) dj booth with rizer of 2x1x1m (LxWxD) where I can put my laptop on the right side of the cd players. When using a different furniture, please put the players on a height of (at least) 1meter! We bring our own Pioneer DDJ-XP2.

Preferred equipment:

1 x DJM-A9
2 x PIONEER CDJ3000

At least:

1 x PIONEER DJM900NXS2 mixer
2 x PIONEER CDJ2000NXS2 speler

Booking with MC: wireless mic SHURE PG of SLX

Booking with SAX/VIOLIN: plugs in on my mixer, own mic clip.

Please keep REC output free.

No booze of partypeople on the dj booth.

MONITOR

Minimum 500Watt. Preferable on the right side, ideal on both sides.

Connected with my mixer so I can adjust monitors volume myself.

A monitor for every musician, and some space to install their effect racks.

POWER

Two solid multiplugs. Adapters for 220v European when playing abroad.
